CDA and MI-YDA Credential Reports Now Available!

There are two new reports available to individual MiRegistry account holders!
They are:

- Child Development Associate (CDA) Credential Summary
- Michigan Youth Development Associate (MI-YDA) Credential Report

They are designed to support individuals that are pursuing a CDA and/or MI-YDA credential and are available on the Reports tab of your individual profile.

CDA Credential Summary Report

This report contains all verified training categorized as Infant, Toddler or Preschool. An individual training (course) can only have one category represented. To support CDA candidates with the most information available, the training (course) category indicated by the trainer is listed and then a description of the course is listed to support determining whether the training content meets the requirement for an Infant/Toddler CDA, a Preschool CDA or a Family Child Care CDA. The Council for Professional Recognition has recognized MiRegistry as an approved state workforce registry.

MI-YDA Credential Report

This report contains all verified training eligible for the MI-YDA Credential. It includes both training that the trainer aligned to a school age content area and training that was categorized as Other and was aligned to an early childhood content area. Trainers can only align training to either early childhood OR school age (youth development) content areas. Including training with a course category of Other allowed for the inclusion of training that was appropriate for both early childhood and school age.

Not all training that is aligned to CDA subject areas or MI-YDA content areas could be pulled into the reports. We have several enhancements planned to allow for the inclusion of training from all course categories. For a record of all training completed, you will want to reference your Learning Record.

Introduction to the MiRegistry Career Pathway Video

Learn more about what the Career Pathway is and how to use this resource to identify possible career opportunities and advance in your education and training.
